Who Are We?

DRUM is a community based program with a vision of neighborhoods where:

- All children are healthy and ready to learn.
- Resources are on hand for promoting all around health: mental, physical, social and economic.
- Children and families have a decent place to live.
- Children and their families are valued, respected and supported.

What Do We Do?

We offer individualized support programs to expectant parents and parents with children 0 to 5 years of age.

Services include:

- Comprehensive in-home visitation
- Child development assessments
- Referrals for resources such as GED, housing and shelter
- Positive parenting skills
- Parent support, education and advocacy.

Services can last up to 5 years, depending on family needs.

Mission

DRU Mondawmin Healthy Families, Inc. (DRUM) is committed to providing individualized quality support to families with pregnant women and young children from birth to school readiness in order to enhance the lives of the parents and positively impact the safety and development of healthy children.

Tyra was 3 1/2 months pregnant and being evicted on the day of her first home visit from DRU/Mondawmin Healthy Families Program.

"I was experiencing overwhelming personal and family challenges, and just wanted my daughter to have a safe place to call home," said Tyra. With encouragement from Ms. Collins, Tyra made a plan and took steps toward her goals and gave birth to a healthy baby girl. She saved money, got housing, learned to drive and purchased her first car. "I began to recognize that I was the center of strength for myself and my baby," says Tyra. Now, Tyra and her little girl are both thriving.

Vision

The vision of DRU Mondawmin Healthy Families is to be Baltimore City's premier home visiting agency that empowers all parents in the neighborhoods we serve to achieve healthy births, Zero Infant Mortality, school readiness for their children, and self-sufficiency launching them toward their greatest potential.

Who Is Eligible?

Expectant parents who are residents of Baltimore City.
